

LP Building Solutions Releases 2025 Sustainability Report

June 24, 2025

Company highlights achievements in product innovation, safety, and responsible operations

NASHVILLE, Tenn.--(BUSINESS WIRE)--Jun. 24, 2025-- [LP Building Solutions](#) (LP), a leading manufacturer of high-performance building products, today released its [2025 Sustainability Report](#), which details the company's continued emphasis on responsible practices across its operations, products, and community involvement.

This press release features multimedia. View the full release here: <https://www.businesswire.com/news/home/20250624812269/en/>

LP Building Solutions releases 2025 Sustainability Report which highlights achievements in product innovation, safety, and responsible operations

"Sustainability is a core part of how we operate at LP," said LP Chair and CEO Brad Southern. "It informs our decision-making, strengthens our performance, and reflects our long-standing commitment to delivering value for our shareholders, customers, team members, and communities. This report reflects the real, everyday actions our teams take to deliver quality products, operate efficiently, and support the people and places around us."

Organized around five key pillars—Governance, People, Environment, Products, and Community—the report highlights how LP integrates responsibility and efficiency into its daily operations and business strategy.

Highlights from LP's 2025 Sustainability Report include:

- **Safety Leadership:** For the 12th time in 16 years, LP was named Safest Company by APA—The Engineered Wood Association.
- **Workforce Development:** LP team members in North America completed nearly 100,000 hours of training last year.
- **Carbon-Negative Products:** LP has published nine environmental product declarations for products that represent 91% of its 2024 North American net sales—all independently verified as carbon negative.
- **Sustainable Product Leadership:** Seven LP® products earned National Green Building Standard® certifications, supporting sustainable building practices.
- **Efficient Energy Use:** Approximately 77% of LP's global energy use in 2024 came from renewable sources, primarily residual biomass generated during manufacturing.
- **Greenhouse Gas Emissions Reduction:** Since 2019, LP has reduced its Scope 1 and Scope 2 greenhouse gas emissions intensity (relative to net sales) by approximately 50%, reflecting continued operational efficiency.
- **Verified Emissions Reporting:** LP's global Scope 1 and Scope 2 greenhouse gas emissions were reviewed for completeness and accuracy, receiving limited assurance from an independent accounting firm.
- **National Recognition:** USA Today named LP one of America's Climate Leaders 2024.
- **Community Investment:** The LP Foundation increased funding for its Community Grants program by nearly \$100,000 to support local initiatives in the communities in which the

company operates.
