About LP Building Products

Louisiana-Pacific Corporation is a leading manufacturer of quality engineered wood building materials, including OSB, structural framing products, and exterior siding for use in residential, industrial and light commercial construction. From manufacturing facilities in the United States, Canada, Chile and Brazil, LP products are sold to builders and homeowners through building materials distributors and dealers and retail home centers. Founded in 1973, LP is headquartered in Nashville, Tennessee, and traded on the New York Stock Exchange under LPX. For more information, visit www.LPCorp.com.

The report is based on feedback from real estate pros that Hanley Wood surveys nationally. The report cites [engineered siding](#) as a 78.6 percent payback at resale. Of all the siding types in the report, engineered siding was listed with the highest replacement value. The survey has a plus or minus 2 percent margin of error. All the siding projects in the report are in the midrange projects category.

LP[®] SmartSide[®] Trim & Siding features treated engineered wood lap, trim, fascia, soffit, shakes and panel, all of which offer beauty, durability and ease of installation. LP SmartSide is one of the fastest-growing brands of siding materials in the United States.

"For decades the Cost vs. Value Report has helped consumers and the remodeling industry gauge investment value of home remodeling projects. The report shows that LP SmartSide engineered wood siding is a valuable siding-replacement option for consumers," said Michelle Forchetti, segment manager, repair and remodeling (R&R), LP SmartSide Trim & Siding.
