FOR RELEASE AT 8:00 A.M. (EST) WEDNESDAY, APRIL 28, 2004

LP Reports First Quarter 2004 Profits on OSB Strength

Portland, Ore. (April 28, 2004) - Louisiana-Pacific Corporation (LP) (NYSE: LPX) reported today first quarter 2004 net income of \$110 million, or \$1.01 per diluted share, on sales from continuing operations of \$695 million. In the first quarter of 2003, LP's net income was \$1.5 million, or \$0.01 per diluted share, on sales from continuing operations of \$407 million.

For the first quarter of 2004, income from continuing operations was \$116 million, or \$1.06 per diluted share. In the first quarter of 2003, LP's income from continuing operations before cumulative effect of accounting principle was \$2.0 million, or \$0.02 per diluted share.

"This year is off to a very strong start. LP's oriented strand board (OSB) business is setting records in volume, pricing and earnings. The robust housing and remodeling markets have led to sharp increases in shipments of OSB, siding, decking and engineered wood products. Based upon discussions with builders, it appears that these strong markets will continue for most of 2004," said Mark Suwyn, LP chairman and chief executive officer.

"Our financial position continues to improve rapidly. We successfully implemented a tender offer and consent solicitation during the quarter - retiring nearly all of the outstanding senior subordinated notes due in 2008," said Suwyn. "By retiring these notes, we were able to eliminate costly debt and the associated restrictive covenants. However, the premiums paid and other costs negatively affected earnings by approximately \$40 million."

"We continue to invest to position ourselves for when the market eventually softens. In OSB, our

on-going \$250 million capital investment program to further lower costs, improve efficiencies and increase capacity across our existing mill system is well under way, and we have already seen positive results. Additionally, we, along with our partner Canfor, will break ground next month on a new, state-of-the-art OSB mill in Fort St. John, British Columbia with an expected startup in late 2005," continued Suwyn. "We are also expanding WeatherBest® decking and SmartSide™ siding businesses to meet growing demand."

At 11:00 a.m. EST (8:00 a.m. PST) today, LP will host a webcast on its first quarter 2004 financial results. To access the live webcast and accompanying presentation, visit www.lpcorp.com and go to the "Investor Relations" section from the main menu.

The major components of “Gain (loss) on sale or impairment of long-lived assets” in the Consolidated Statements Of Income for the quarter ended March 31 are reflected in the table below and are described in the paragraphs following the tables:

- Cumulative Effect of Change in Accounting Principle:

LP adopted Statement of Financial Accounting Standards No. 143, “Accounting for Asset Retirement Obligations,” as of January 1, 2003. This statement addresses the retirement of long-lived assets and the associated retirement costs. Under this statement, we will record both an initial asset and a liability for the present value of estimated costs of legal obligations associated with the retirement of long-lived assets. These initial assets will be depreciated over the expected useful life of the asset. Upon adoption of this statement, we changed our accounting for landfill closures, reforestation obligations associated with certain timber licenses in Canada and other assets. Implementation of this standard resulted in income of \$0.2 million (or \$0.1 million after taxes) recorded as a “cumulative effect of change in accounting principle” as of January 1, 2003.
